

# Confined Space Entry Workshop

## 1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with MIOSHA

## 2 Why you need this Seminar . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000, and indirect costs, which were estimated at an additional \$127 - \$212 billion in 2002. (*2003 Liberty Mutual Safety Index.*)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces worker's compensation costs, improves employee morale, and increases production and quality.

## 3 What You'll Learn . . .

MIOSHA's General Industry Standard Permit-Required Confined Space Entry, Part 90 requires the employer to assess the work environment to determine the existence of confined spaces. A confined space is one, which meets the following: has limited means of entry or exit, is not designed for continuous occupancy, and is large enough to bodily enter. This program is designed to enable participants to identify confined spaces, determine appropriate entry procedures and develop employee-training programs.

### Agenda

*We offer a flexible  
program agenda  
to emphasize the  
topics you  
want most.*

- ▶ Welcome and Introductions
- ▶ Confined Space Training
- ▶ Identify
- ▶ Classify
- ▶ Evaluate
- ▶ Permit-Required Confined Space Entry
- ▶ Duties of Supervisors, Entrants and Attendants

# Facilitator

Anthony Neroni was promoted to Occupational Safety Consultant with the Consultation Education and Training Division in January 2003. He has 19 years of service with the State of Michigan including: 6 years with the Michigan Department of Transportation, 12 years as an Occupational Safety Inspector with MIOSHA, his last 2-1/2 years as Senior Safety Officer. Senior Officers are used on more complex cases and are instrumental in training and coaching other safety officers. Anthony's previous experience includes 10 years of as a machinist, operating various metalworking machines.

Anthony has excellent knowledge of the General Industry Safety Standards and has also received additional certified training in many other areas.
